## Challenge for Older Learners:

One good way to study the Bible is when we compare the same account told two or three different times. Read the three accounts of Jesus stilling the storm and the apostles' reaction (Matthew 8:23-27; Mark 4:35-41; Luke 8:22-25). Make two columns. In one column write down what the accounts have in common. In the other, write down differences that you see.
