Challenge for Older Learners:

After studying this lesson you are more familiar with the concept of glory. An important part of this concept is learning how to glorify God. Below, write down five ways that God can be glorified in your life. After each, write down whether you believe you are doing this to give glory to God. Upon completion, show the list to your parents or other older Christian and discuss what you have written down and, if you are not glorifying God in the ways you have listed, how you can improve.
